The Honourable Minister
Ministry of Local Government and Rural Development
Private Bag 006
Gaborone

The Honourable Minister,

In accordance with Section 65 A (13) of the Constitution of Botswana, we are submitting to you on behalf of the Commission, a report on the activities associated with the preparations for, and conduct of the 2021 Local Government by-elections in the Nkange North, Tumasera-Seleka, Tamasane, Ga-Molopo, Motokwe, Moshupa-East, Boseja-South, Lentsweletau West, Lorolwane, Metsimotlhabe and Khwee Polling Districts following the passing away of their respective Councillors.

On the 11th November 2021, the Honourable Minister of Local Government and Rural Development issued eleven (11) Election Instruments pursuant to Sections 154 (1) of the Electoral Act for the nomination and election of representatives of Local Authorities. Additionally, the instruments designated 26th November 2021 as Nomination Day and 18th December 2021 as Polling Day.

The by-elections for the Local Authorities were held on the 18th December 2021 across the 11 polling districts.

We now have the pleasure to submit our report on these elections.

Yours sincerely,

Honourable Justice A. B. Tafa
Chairman
INDEPENDENT ELECTORAL COMMISSION

Ms D. L. Serumula
Acting Secretary
Independent Electoral Commission

Foreword

The Independent Electoral Commission (IEC) is proud to have delivered credible by-elections on the 18th of December 2021 during the advent of the Omicron Covid-19 virus across the country. The Electoral Commission is elated to not only have met its legislative mandate but also to have contributed to the protection of the citizens by ensuring strict adherence to the Covid-19 health protocols during the execution of the electoral processes.

The by-elections were another uncompromising test to electoral democracy. Once again, the elections were conducted well and the Commission was able to announce the results within the expected timeframe, six (6) hours from close of poll.

The by-elections were very peaceful and violence-free with no accusations of intolerance reported. However, they did not come without their own set of challenges and threats. One such challenge was the reduced turnout of voters in many of the polling stations. There is need to reverse this trend and bring voters, particularly young people into the democratic process.

Successful elections are a collective effort, and on behalf of the Commission, I would like to thank and sincerely appreciate all the stakeholders and partners who made these elections possible. These include and not limited to:

- Political parties,
- Civil Society Organisations,
- Traditional Leaders,
- Religious Organisations,
- Faith-Based Organisations,
- Media,
- Service providers.

To my fellow Commissioners, staff of the Secretariat to the Commission and poll staff, thank you for continuing the legacy of integrity, professionalism and the quest for excellence.

The final word of thanks goes to the voters in the various polling districts who continue to believe in the democracy of our country and willingly fulfilled their responsibility, by casting a vote. Le kamoso bagaetsho
Thank you.

Justice Abednego B. Tafa
Chairperson, IEC

Introduction and Background

For a number of reasons, the 2021 by-elections were unprecedented and challenging. To begin with, they were the first to be conducted amid the threat of a pandemic (Covid-19). Secondly, as a result of the declaration of a State of Emergency and the regulation promulgated thereafter, the IEC was compelled to simultaneously conduct the 11 by-elections within extremely tight budgetary constraints.

However, to ensure the success of the by-elections, the IEC needed to leverage on its organisational strategy and existing legal frameworks. As demonstrated throughout this report, all the 11 by-elections were successfully conducted, and where difficulties arose, prompt resolutions were sought to ensure that no citizen was disenfranchised.

Background

The IEC was established in 1997 through Section 65A of the Constitution of Botswana. It comprises seven (7) members headed by a Chairperson who is a sitting judge of the High Court, deputised by a Legal Practitioner. The two are appointed directly by the Judicial Service Commission (JSC), whilst the other five members are also appointed by the JSC from a shortlist of persons recommended by the All Party Conference. The Commission serves for two (2) consecutive terms of Parliament. Currently, the Commission has a vacancy due to the resignation of one of the Commissioners. The Commission's responsibilities, as defined in Section 65A (12) of the Constitution, are as follows:

- To conduct and supervise elections for members of the National Assembly and Local Authorities;
- To conduct referenda;
- To ensure that elections are conducted efficiently, properly, freely, and fairly;
- To give instructions and directions to the Secretary to the Commission regarding their responsibilities under the Constitution and electoral laws in general; and
- To perform such other functions as may be prescribed by an Act of Parliament.

Legal Framework

The Constitution of Botswana, the Electoral Act and the Local Government Act, laid the groundwork and provided guidance for the successful conduct of credible by-elections.

Constitution of Botswana

Botswana's Constitution provides for the establishment of the Independent Electoral Commission and the appointment of its Secretary. It also bestows upon the commission the responsibility of ensuring that elections are conducted efficiently, properly, freely, and fairly.

Electoral Act

The Electoral Act details the electoral processes,

Local Government Act

The Local Government Act establishes eligibility requirements for Local Government Election candidates and the timeframe for filling a Local Government vacancy.

PRE-BY ELECTION PHASE

Sensitisation and Outreach

To expand voter education, workshops for Party Liaison Committees (PLCs), People with Disabilities, and Kgotla meetings for the various affected constituents were held. The workshops were meant to share critical information on electoral processes and the location of various Polling stations. Additionally, the Commission held sensitisation workshops for poll staff, candidates, and Polling Agents to ensure that all stakeholders were adequately prepared and equipped for the by-elections.

Issuance of duplicate Cards

In order to ensure greater participation by citizens in the by-elections, duplicate voter registration cards were issued throughout all regional offices as well as strategically located areas for those who had misplaced or lost their originals prior to the by-elections.

Media and Elections

Recognising the media's role in elections, the Commission launched targeted communication efforts to keep all stakeholders informed about the by-elections and the electoral process. The Commission, in particular, conducted media campaigns via social media platforms, radio, television, and print media.

Radio & Television

Due to their widespread coverage, Radio Botswana (RB) and Botswana Television (BTV) were extensively used to sensitise the general citizenry throughout the country about the by-elections.

Newspapers

The Commission utilised a variety of newspapers as part of its publicity strategy in order to reach out to the general public. Due to their long news cycle and widespread distribution, newspapers carried publicity messages about by-elections and electoral processes.

Social Media

The IEC Facebook Page, the BW Government Facebook Page, and other social media platforms were used to reach out to young people and encourage them to vote in the by-elections.

RECRUITMENT OF ELECTION OFFICIALS

Poll Staff

Two hundred and Forty-Six (246) public officers were hired as poll staff, with eleven (11) and Forty-Four (44) appointed as Returning Officers and Assistant Returning Officers, respectively. The remaining officers served as Presiding, Polling, and Tallying Officers. All poll staff members were trained to conduct polling efficiently and effectively.

Logistics

Logistical planning as a key process required the Commission to timeously put in place effective measures to ensure a coordinated and inclusive approach in the delivery of the 2021 by-elections. The planning process encompassed the acquisition, packaging, and distribution of election materials, as well as the sourcing of transportation to facilitate the elections.

Ballot Papers

A tender was awarded to Botswana Government Printing and Publishing Services, for the printing of Twenty-two Thousand, Eight Hundred and Seventy-five (22,875) ballot papers. The ballot papers were successfully printed and delivered on time.

Polling Booths

Sixty-Three (63) specially designed booths were distributed throughout the affected Polling Districts in order to ensure that all voters, including those with special needs, were able to vote freely and secretly.

Distribution

All election materials were distributed on time to ensure the smooth conduct of the by-elections. Returning Officers collected ballot papers for distribution to Polling Districts. Other election materials were distributed in an equitable manner to all polling stations. Fifty-Nine (59) vehicles were sourced from various Government Ministries and Departments, as well as Local Authorities, for the 2021 by- elections.

ELECTION PHASE

Nominations

On the 18 November 2021, nominations for the 11 polling districts were received in accordance with Section 35 of the Electoral Act. A total of 30 candidates were duly nominated to contest in the by-elections. Only five (5) of the total were female.

Figure 1 depicts the number of polling districts contested by each political party and independent candidates by gender. The Botswana Democratic Party (BDP) was the only political party that fielded candidates in all eleven (11) polling districts, with the Umbrella for Democratic Change (UDC) coming in second with eight (8). Only five candidates were fielded by the other parties. There were five independent candidates that qualified to run in the by-elections.

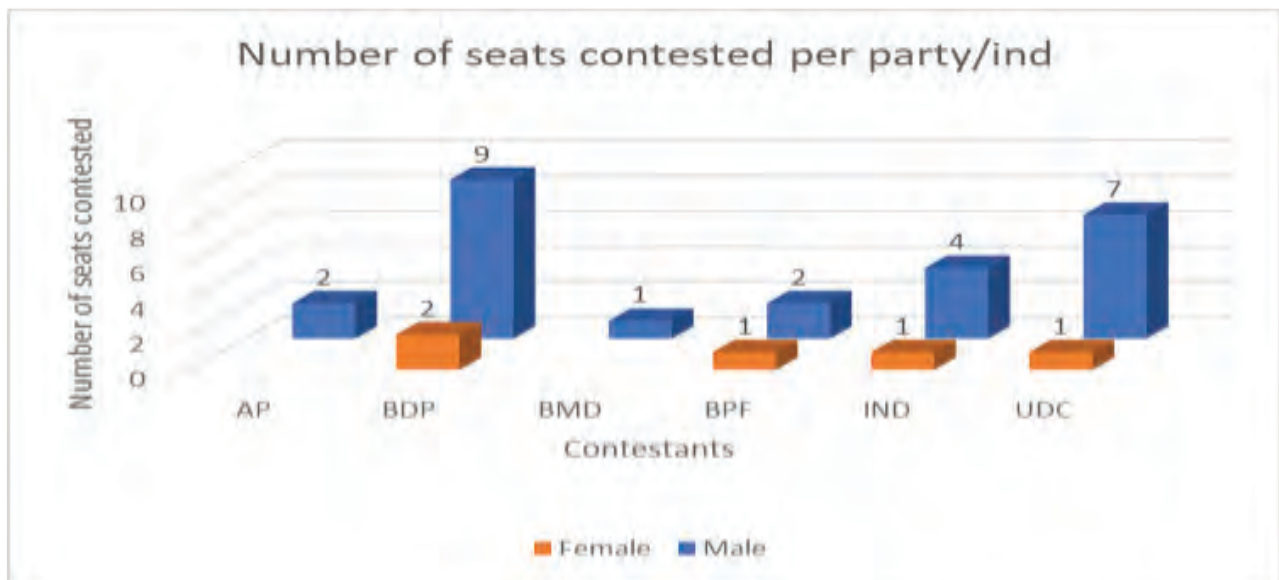

Figure 1 Number of Polling Districts Contested for by each Political Party and Independent Candidates

Polling

A citizen casting his vote.

Polling was generally peaceful and orderly during the by-elections. However, there were a few hurdles, such as in Sasakwe Polling Station, where voting began at 0800 hours and ended late at 2030 hours due to a defective ballot box lock, and in Rasesa Polling Station, where after closing the polling station, voting continued until 2000 hours due to a high voter turnout in the late afternoon. A total of ten (10) voter registration queries related to the roll were submitted and were promptly addressed to ensure that no citizen's right to vote was lost.

Voter turnout

The voter turnout for the 2021 by-elections per Polling District is depicted in Figure 2. The average turnout for the 11 by-elections was 45% of the Twenty Three Thousand Two Hundred and Eighty Five (23 285) who had registered. Moshupa East Polling District had the lowest (24%) voter turnout. This was partly due to flooding that had rendered some roads leading to some of the polling stations impassable.

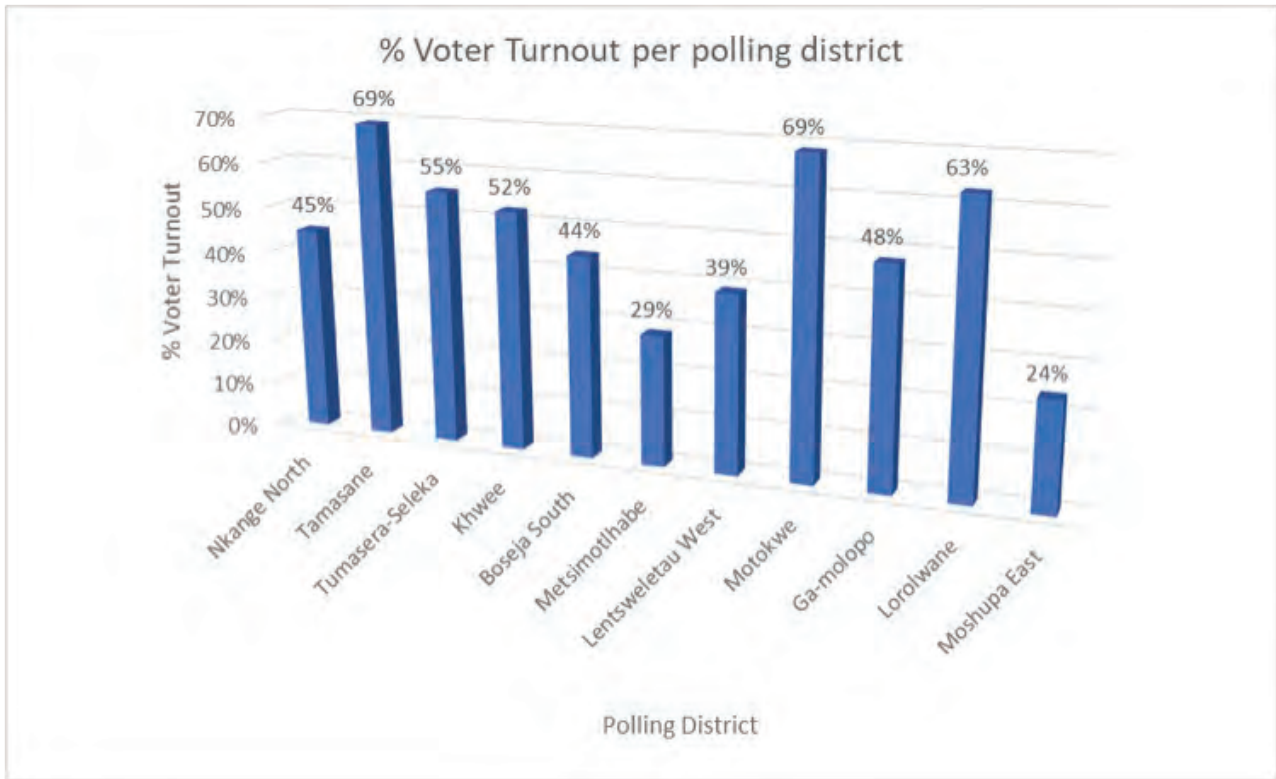

Figure 2: Percentage Voter Turnout per Polling District

Percentage votes disaggregated by gender indicate that 60% of votes were cast by females. This is not surprising given that more women than men registered to vote in the 2019 General Elections (Figure 3).

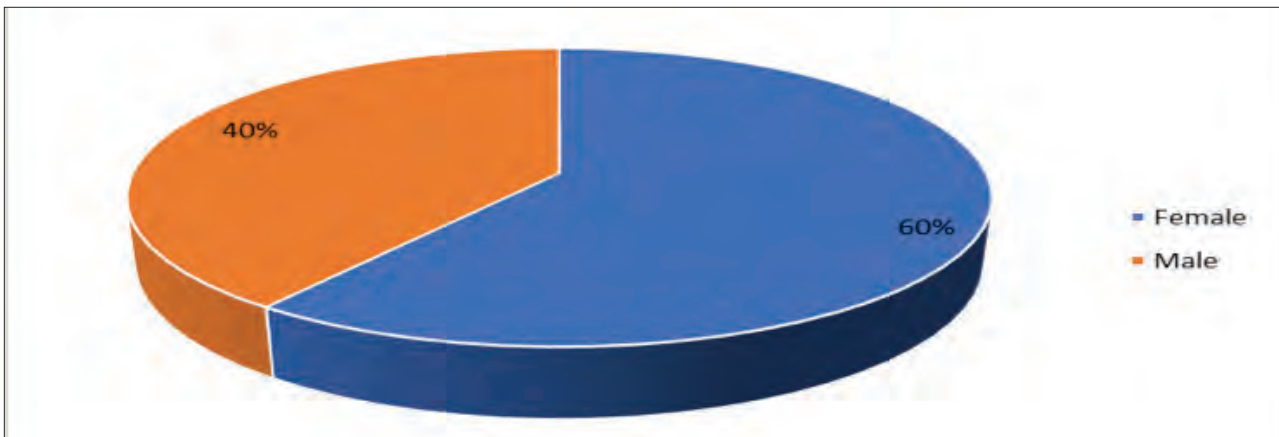

Figure 3: Percentage Voter turnout per gender

Further analysis of voting patterns by gender as reflected in Figure 4 reveals that the 60+ female age group cast the most votes at One Thousand Four hundred and Seven (1407), while the 18 to 25 age group cast the least votes at Three Hundred and two (352) out of Six Thousand Two Hundred and Thirty-Two (6232) votes cast by females.

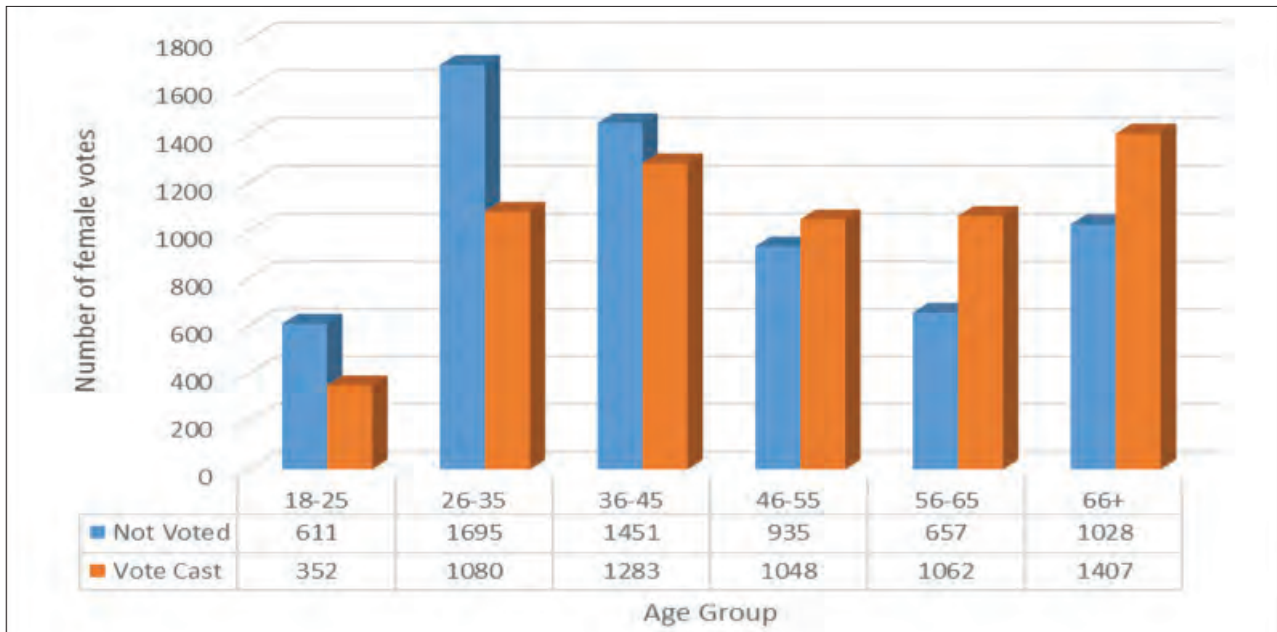

Figure 4: Number of Female Voters per age group

Male voters revealed a different picture, with the 36 to 45 years age group registering Nine Hundred and Twenty One (921) votes, while the 18 to 25 years age group registered only Two Hundred and Thirty Five (235) votes, as illustrated in Figure 5.

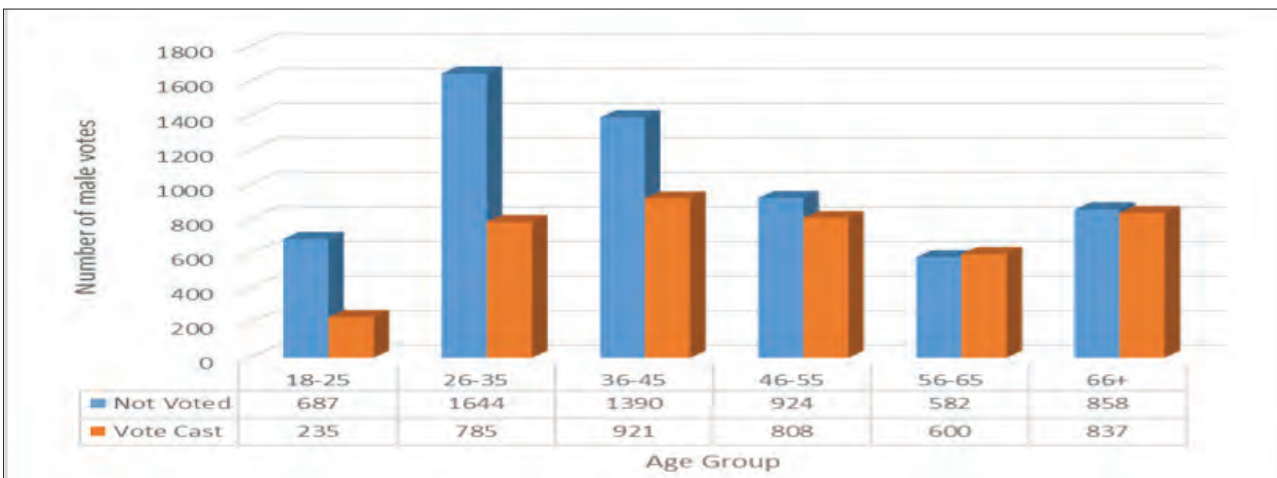

Figure 5: Number of Male voters per age group

The findings, when broken down by age group, confirm the long-held concern that fewer young people vote. Only Five Hundred and Eighty-Seven (587) young people (18-25) and One Thousand Eight Hundred and Sixty-Five (1 865) of ages 26 to 35 voted in the by-elections, out of a total of the Twenty-Three Thousand Two Hundred and Eighty-Five (23 285) people who were eligible to vote. This represents 11 percent of the total vote and is quite low (Figure 6).

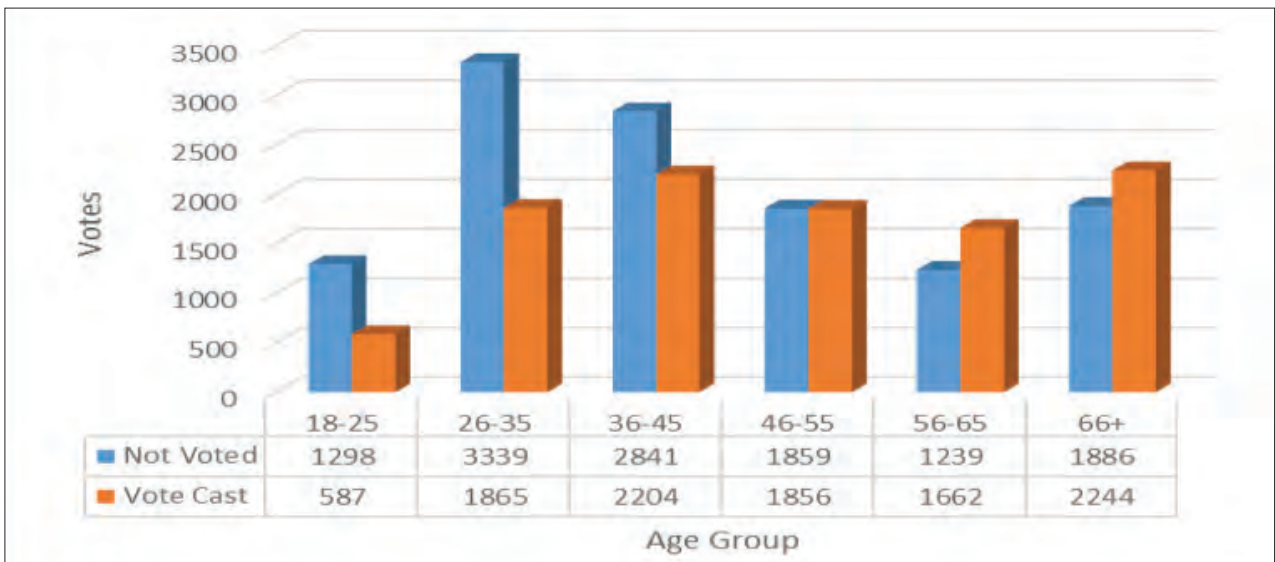

Figure 6: Votes cast per age group

POLL Staff in PPE

Strict adherence to Covid-19 Protocols was required to ensure the safety of poll staff and voters. Personal Protective Equipment (PPE) was issued to all poll staff. Prior to voting, each voter was required to sanitise or wash their hands; wear facemasks; and maintain social distance. Pens used to mark on the ballot papers were disinfected after every use.

Security

Security is critical to the electoral process in that its adequate presence creates a conducive environment for conduct of free and fair elections. The Presiding Officer is empowered by Section 63 of the Electoral Act to regulate voter admission to the polling station and maintain order. Furthermore, Section 64 of the Electoral Act provides that a Police Officer may remove a person who is misbehaving at a polling station only on the Presiding Officer's order. Two Hundred and Ninety-Eight (298) Police Officers were stationed at Sixty-Six (63) local Polling Stations and Eleven (11) Counting Centres.

Media Access

Throughout the electoral process, the media play a critical role. Along with promoting public debate and educating citizens, they keep an eye on the process's integrity and can serve as a primary vehicle for accountability demands. Recognising the media's critical role in elections, local media journalists were accredited to cover the elections. Counting and Announcement of Result

Counting ongoing at Polling District

After the polls closed, Presiding Officers did a ballot paper account and transported ballot boxes to Counting Centres, where verification began prior to counting. This procedure ensured that the number of used and unused ballot papers corresponded to the number of ballot papers issued to the Presiding Officer by the Returning Officer before beginning of poll. Returning Officers then facilitated counting through their teams. As each ballot was sorted, tally sheets were used to count and record the corresponding number. This administrative arrangement has been shown to expedite the counting process and improve counting accuracy.

Section 77 of the Electoral Act empowers the Returning Officer to declare the results of the poll at the place of counting and then forward them to the Commission's Secretary. The results of the 11 by-elections were announced promptly and without incident, all within six (6) hours of the close of poll.

Results

The percentage of votes cast for each political party is depicted in Figure 7. The Umbrella for Democratic Change (UDC) received 42% of the popular vote, while the Botswana Democratic Party (BDP) received 39% of the vote. Alliance for Progressives (AP), Botswana Patriotic Front (BPF), and Botswana Movement for Democracy (BMD) each received less than 8%.

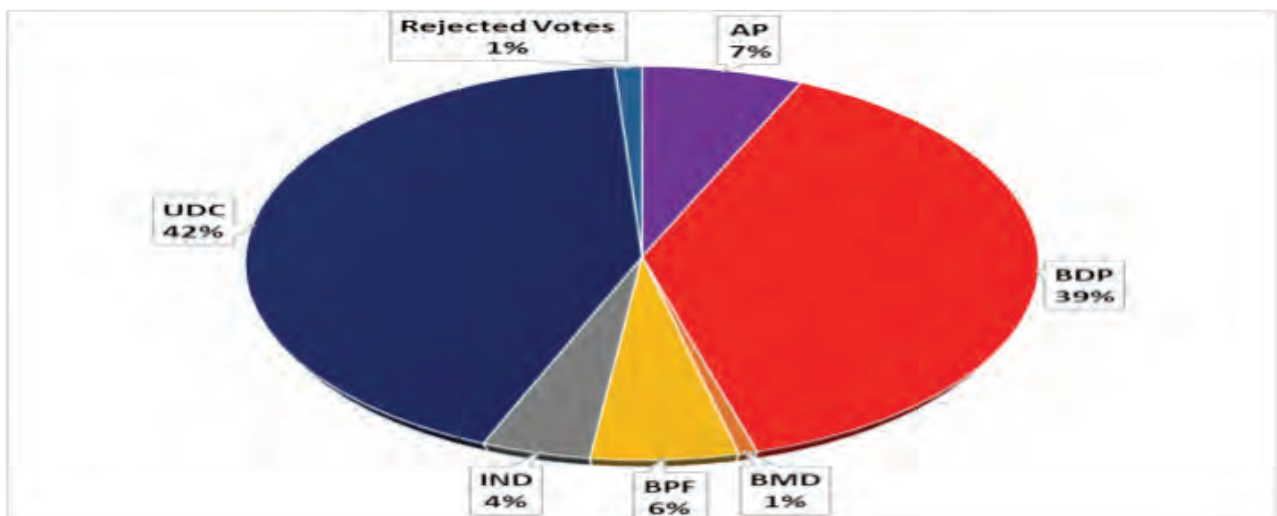

Figure 7: Percentage of Votes per Political Party

A further analysis of the results looking at the number of seats won by each party indicate that, the Umbrella for Democratic Change (UDC) won the majority of seats, with a total of six (6) seats out of eleven (11). With three (3) seats, the Botswana Democratic Party came in second, while the Alliance for Progressives and the Botswana Patriotic Front received one (1) each (Figure 8). No independent candidate won a seat.

A further analysis of the results looking at the number of seats won by each party indicate that, the Umbrella for Democratic Change (UDC) won the majority of seats, with a total of six (6) seats out of eleven (11). With three (3) seats, the Botswana Democratic Party came in second, while the Alliance for Progressives and the Botswana Patriotic Front received one (1) each (Figure 8). No independent candidate won a seat.

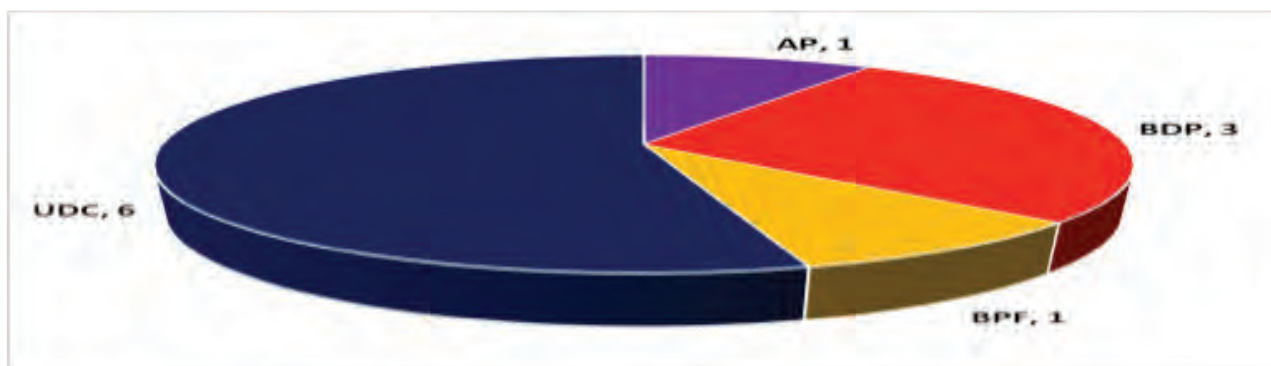

Figure 8: Number of Seats won per political party.

Figure 9 depicts the results for each contesting political party, with the results broken down even further by gender. From a total of five (5) women who contested, only one (1) was successful. A concerning trend, given that females register and vote at a higher rate than males.

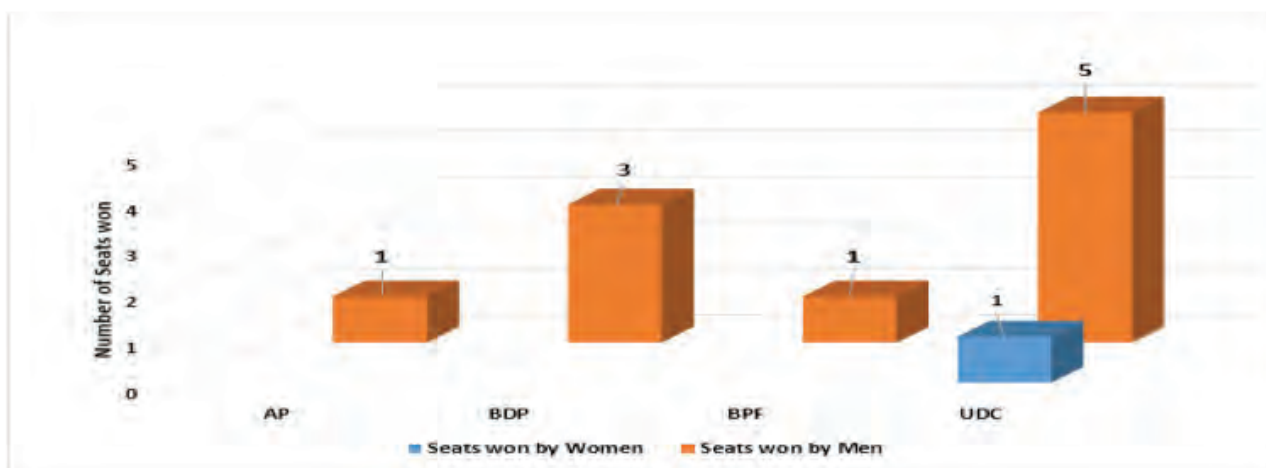

Figure 9: Local Government Seats Won by Gender

Figure 10 compares votes cast in the 2019 General Elections to those cast in the 2021 by-elections. There is no doubt that fewer voters turned out for the by-elections. This is a continuing trend that necessitates increased efforts to combat voter apathy.

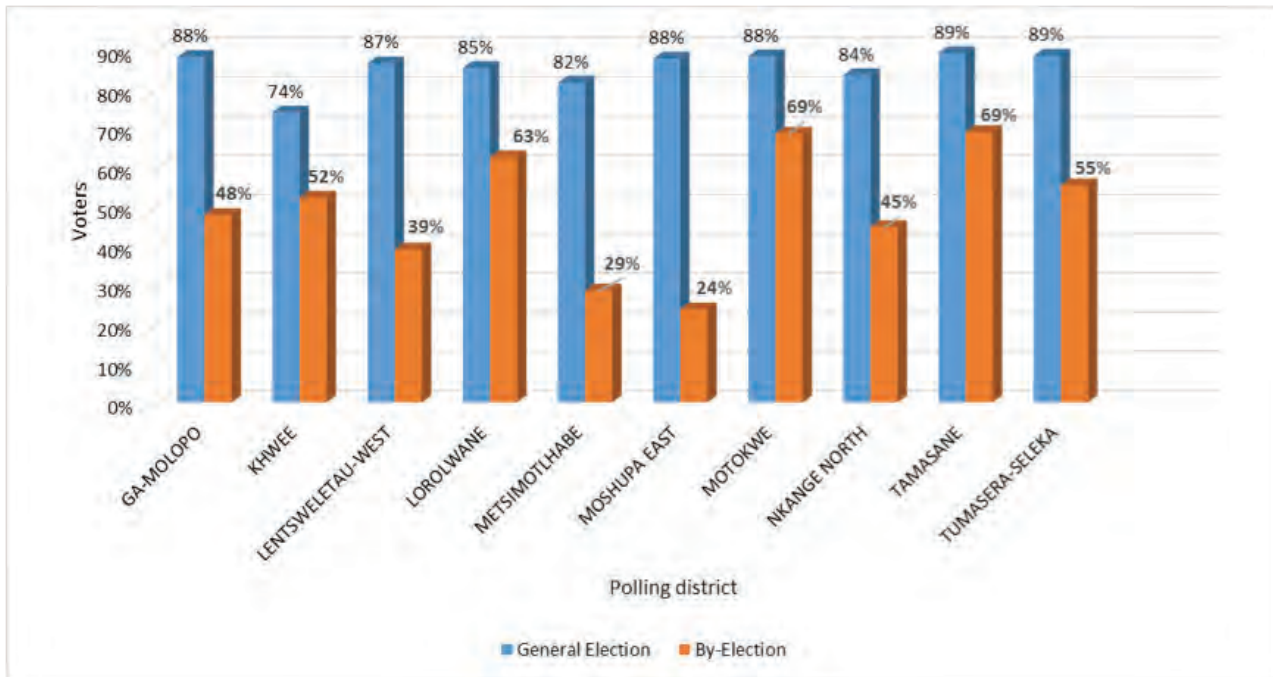

Figure 10: Comparative Votes Cast General Elections & 2021 by- Elections

Figure 11 illustrates the difference in the number of ballots that were rejected in the 2019 General Elections and the 2021 by-elections. The results of the comparison show that the number of rejected ballots in the 2021 by-elections is directly proportional to the number of rejected ballots in the 2019 General Elections. This necessitates increased voter education in order to significantly reduce the number of ballots that are rejected.

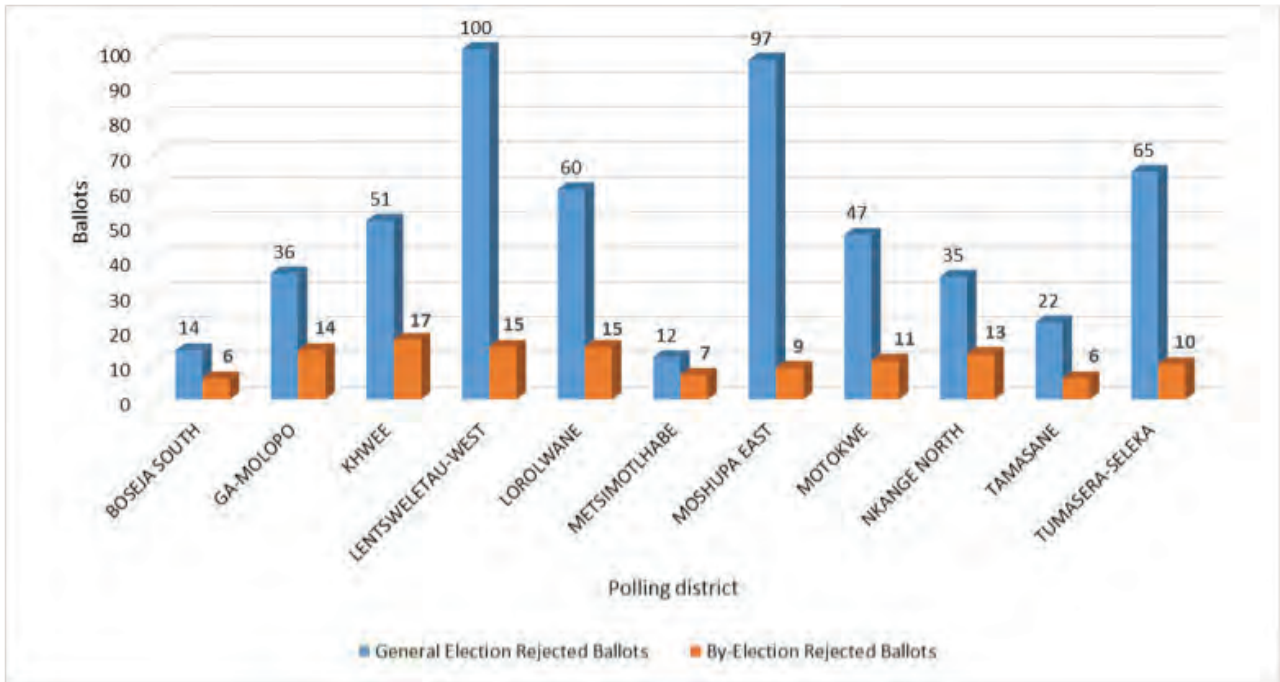

Figure 11: Comparative Rejected Ballots for the 2019 General Elections & 2021 By- Elections

Elections Observation

Election observation enables an assessment of the degree to which democratic election principles are being followed. The 2021 by- elections were observed by one local observer from the Ministers Fraternal stakeholder group.

Election Petitions

Election petitions are an important aspect of the democratic process. The electoral law empowers petitioners to challenge the return of a result as a consequence of allegations of irregularities, disqualification, corruption, or illegal practices. A petition to the High Court may be filed by a voter or candidate for an election in that constituency/polling district. The petition must be filed within thirty (30) days of the results being released and must be tried and decided within ninety (90) days of filing. There were no petitions filed challenging the results of the 2021 By-Elections.

Payment of Poll Staff

Poll staff must be duly compensated for services rendered via a basic overtime allowance calculated on the basis of hours worked. In accordance with legislative requirements, poll workers are compensated through an official payroll system that will determine the appropriate statutory deductions per person. As of 17th March 2022, the Commission had succeeded in paying all Poll staff members their dues.

Expenditure

Elections are inherently costly. A total budget of Three Million Five Hundred and Thirty Thousand, Seven Hundred and Eighty-Seven Pula, and Eighty-Seven Thebe (P3 530 787, 87) was earmarked for the 11 by elections. The total expenditure on electoral activities for the 2021 11 by-elections amounts to Three Million, Three Hundred and Ninety Nine Thousand, and Thirty One Pula and Twenty Six thebe (P3 399 031.26). The expenditure covers a range of critical pre-election activities and materials required to ensure the smooth operation of free and credible elections, including publicity, workshops, and election materials.

Challenges

- There were few inaccuracies in the Election Roll used for the 2021 by-elections, as a result of the manual nature of collecting voter information for the 2019 General Election registration process. Some voters were mistakenly assigned to the wrong polling stations, while others were rejected. However, the Commission, assisted voters who showed up at polling stations, except for those who were rejected or missing from the roll. Automation of the registration process would be a long-term solution to this problem.
- Botswana's unsatisfactory electoral participation is a problem. This is especially true for the young people who turned out in comparatively small numbers in all of the polling districts affected.

Conclusion

In conclusion, the 2021 by-election report sought to highlight critical aspects of the conduct of the by-elections of the 18th December, 2021. The report provides an in-depth analysis of what worked and what did not; as well as lessons learned for future elections in Botswana.

The elections were held in the impending cloud of the Covid-19 Pandemic. The Commission was successful in ensuring that established Covid-19 protocols were followed. The conduct of 11 elections in a single day imposed severe financial constraints, which threatened to jeopardize the elections' conduct.

The ten (10) received queries relating to the roll suggest that more work remains to be done, including the transition from manual to automated data collection during voter registration. This would help reduce the errors discovered in the election roll.

Additionally, efforts to increase citizen participation in the electoral process must be stepped up to address the low voter turnout identified. The 2021/2022 Voter Apathy Study will undoubtedly shed light on the underlying causes of citizen disengagement, allowing for the development of meaningful solutions. The continuation of rejected ballots necessitates increased voter education to ensure that voters have the knowledge necessary to vote effectively.

Generally, the report shows that, by and large, the by-elections were conducted successfully and the results were released without incident and therefore credible.

ANNEXURES

Local Government By-Election Results

| Polling District Code | Polling District Name | First Name | Last Name | Gender | Party | Registered Voters | Votes Received | Valid Votes Cast | Rejected Votes | Total Votes Cast | % Voter Turnout | Win Margin |
